

*According to the Center for Disease Control, for the first time in history, our children were expected to live shorter lives than us. At St. Andrew, we didn't just ask why. We enlisted the greatest minds.*

*And then, We did something about it. <sup>SM</sup>*

### PROGRAM MISSION

### PROGRAM BENEFITS

## ***PARENTS, LET'S GET OUR KIDS FIT FOR LIFE<sup>®</sup>***

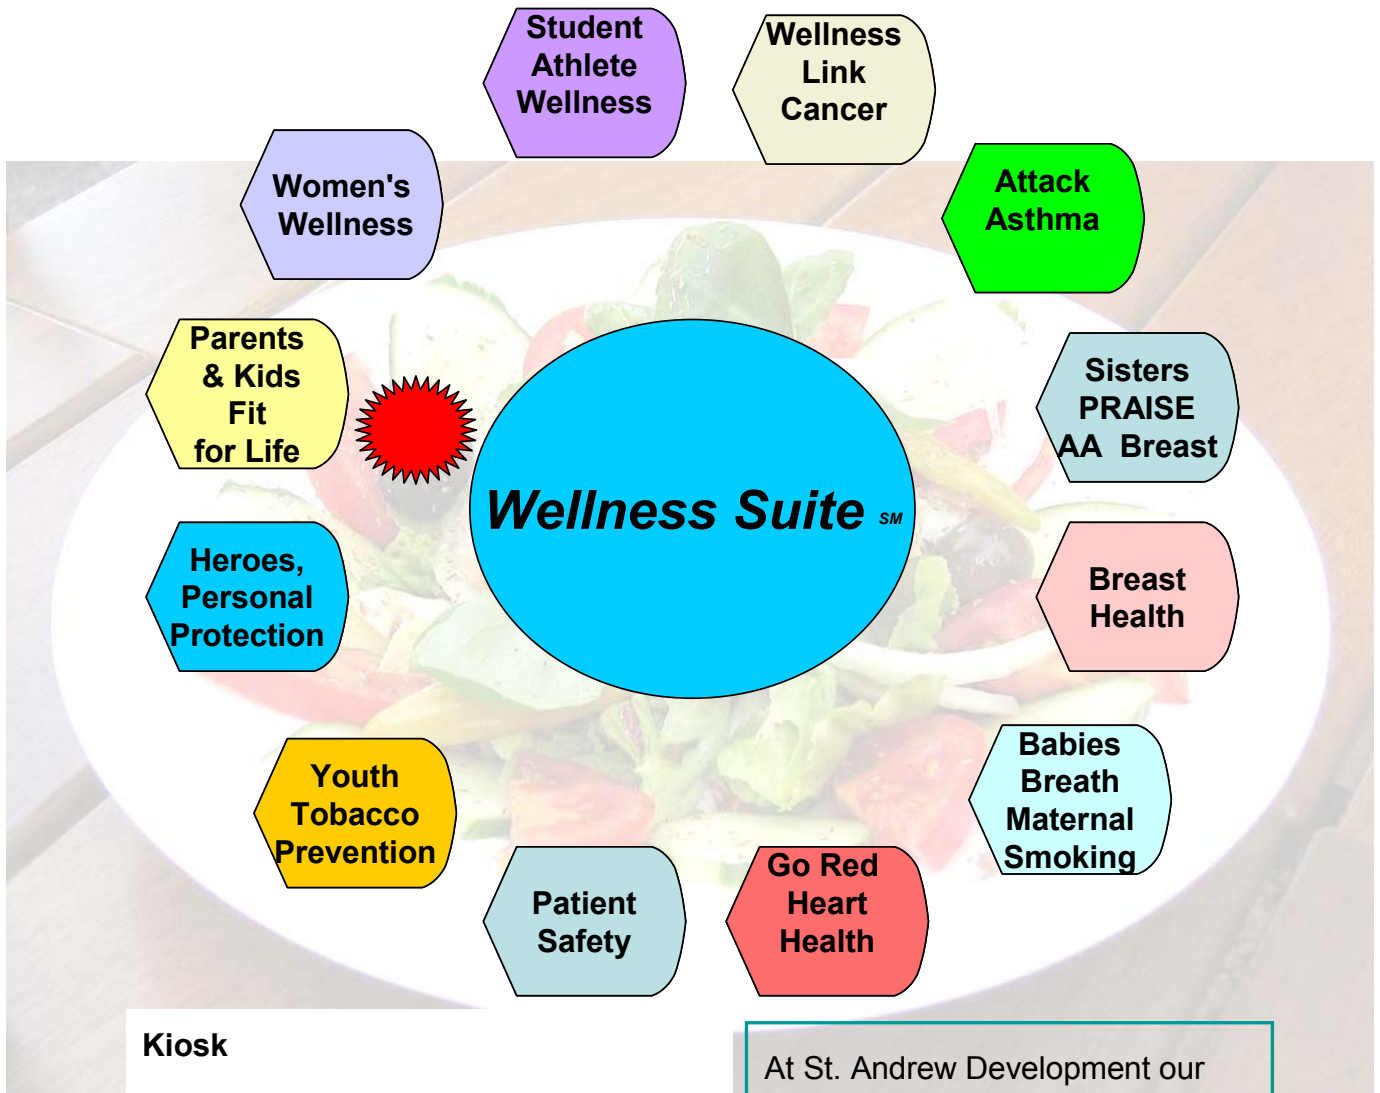

A health education program directing parents and children toward adopting lifelong nutrition and activity strategies leading to a lifetime of wellness.

A train-the-trainer program educating & influencing parents, families and their social network about the lifelong benefits and importance of making proper lifestyle food choices and the value of engaging in physical activity.

- ***Powerful*** – Engages parents and children in a confidential, direct one on one setting using personalized health education kiosks and the Web. Includes a WIC education module, educational games and connections to local resources.
- ***Simple*** – Economically presents complex information in an age specific venue on nutrition, responsible diet, tobacco use and exercise in an easy to understand format using highly engaging images, graphics and audio narrations.
- ***Captivating*** – Gives parents and children the ability to live a "nutrition day" making food choices along the way and seeing the outcomes of their choices.
- ***Effective*** – Independently developed assessment tools show that the program is extensively used and also influences users to favorably alter their behavior.
- ***Outcome Based*** - Offers program administrators the ability to retrieve full usage statistics detailing topics viewed (frequency), self-assessment tools (optional) and personal information (optional) directly from the web meeting HIPAA standards.

**Wellness Suite** offers a variety of modular health education programs to our clients supporting flexible deployment strategies by using reliable, self-standing, easy to use touchscreen kiosks and web portals.
