PROGRAM ID & DESCRIPTION

FIRST RESPONDERS' PERSONAL PROTECTION PORTAL[®]

PROGRAM MISSION

A modular health education and safety program educating first-responders about protecting themselves.

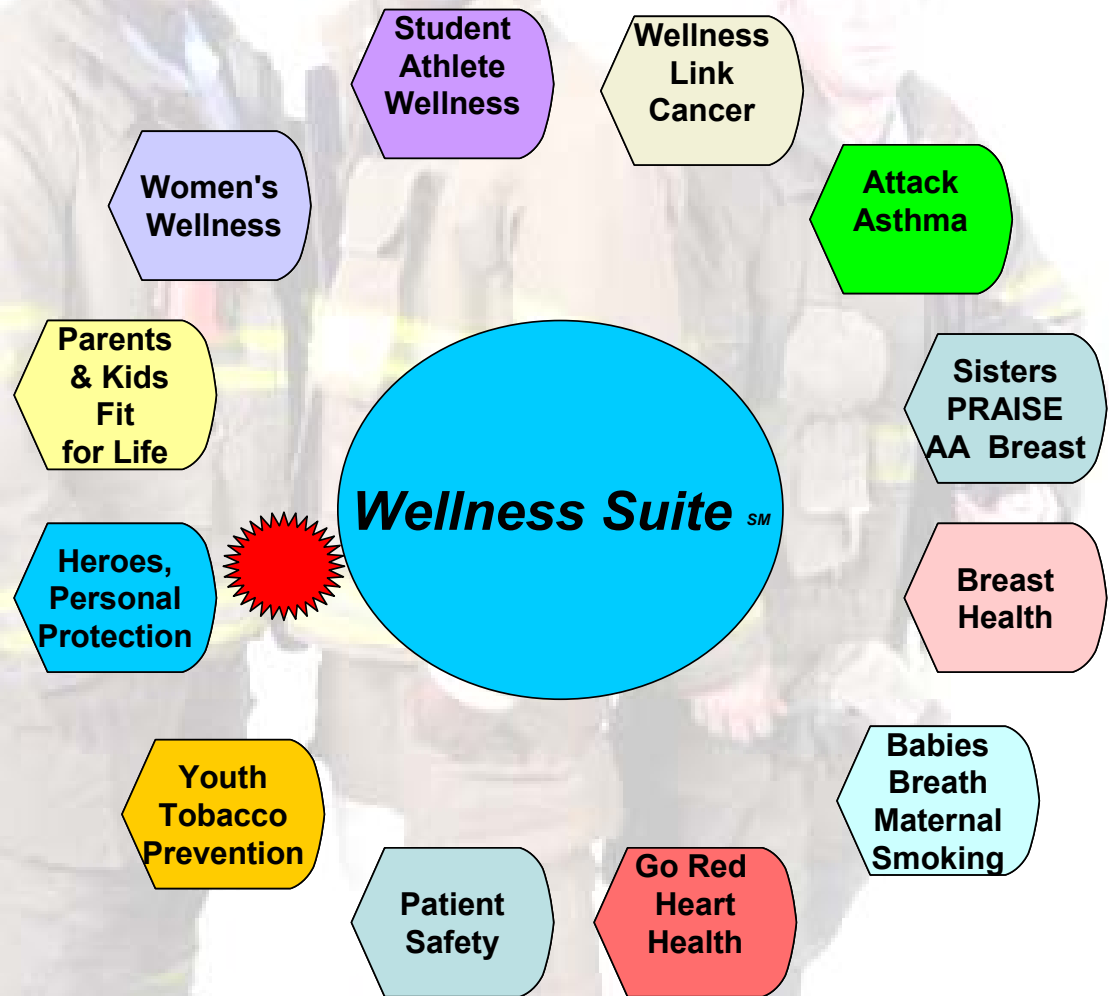

PROGRAM BENEFITS

Educate the first responder community in matters of personal safety and response to emergency response situations.

- **Powerful** – Engages target audience in a confidential, direct one on one setting using personalized health education touchscreen kiosks and the Web. Can directly connect users to local resources.
- **Simple** – Presents complex information on Hepatitis and professional response in an easy to understand format using highly engaging images, graphics and audio narrations.
- **Captivating** – Encourages first-responders to visit topics that they might otherwise not have access. Can be integrated with other Wellness Suite health topics
- **Effective** – Independently developed assessment tools show that the program is extensively used and also influences users to favorably alter their behavior.
- **Outcome Based** - Offers program administrators the ability to retrieve full usage statistics detailing topics viewed (frequency), self-assessment tools (optional) and personal information (optional) directly from the web meeting HIPAA standards.

Wellness Suite offers a variety of modular health education program to our clients supporting flexible deployment strategies by using reliable, self-standing, easy to use touchscreen kiosks and web portals. For more information on how the **Wellness Suite** family of programs can help your organization reach into your community and influence health outcomes, contact St. Andrew Development today on the web at www.StAndrew.com, email at Wellness@StAndrew.com, or call 717-848-5818.

Wellness Suite SM Community of Health Education Touchscreen Kiosk & Web Programs
