

According to the Pennsylvania Commission for Women, women too often put their own health in last place.

At St. Andrew, we didn't just ask why. We summoned the greatest minds.

And then, **We did something about it.**SM

PROGRAM BENEFITS

WOMEN'S WELLNESS GUIDE[®]

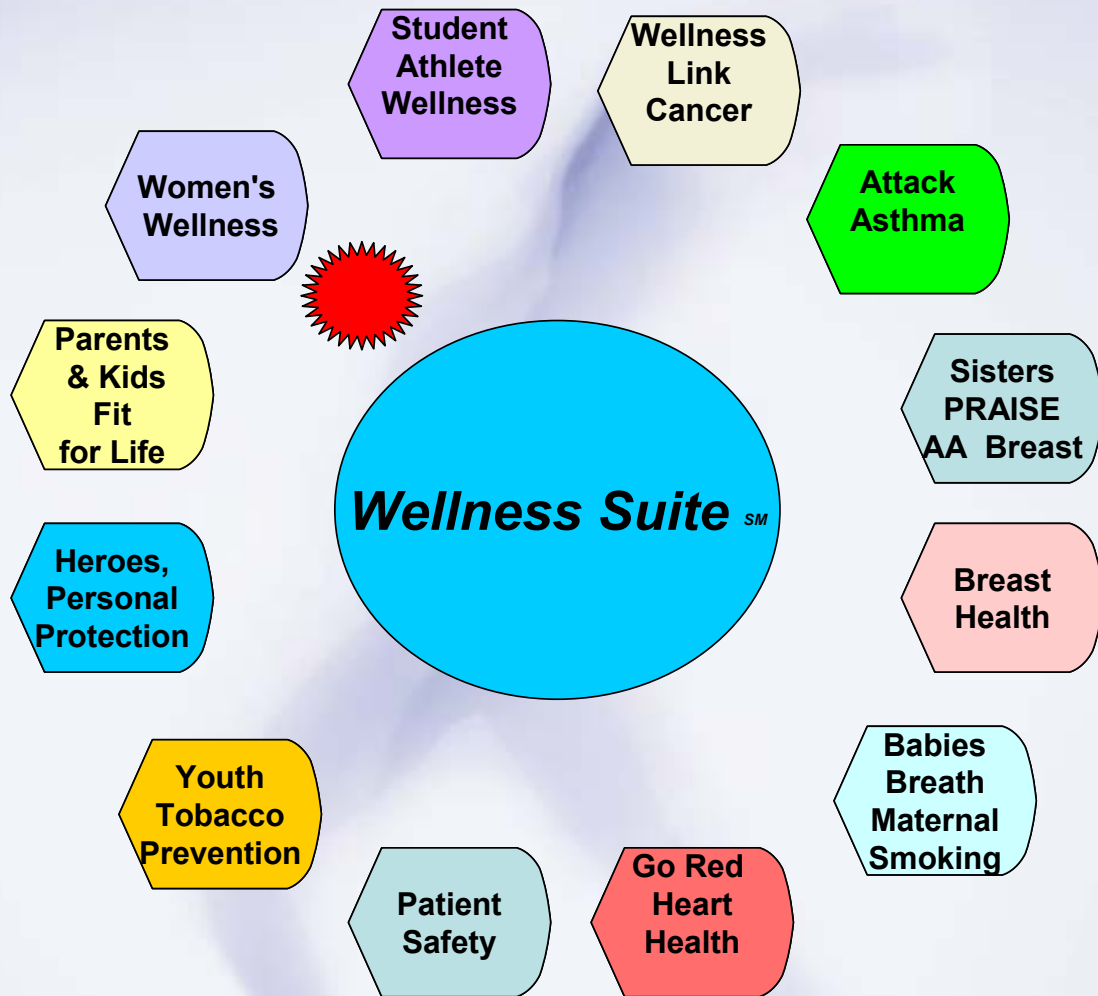

A modular interactive health education touchscreen program empowering women in matters of their own health.

Empower women through education with the life-skills to take control of their health by making informed choices in critical health matters. Topics include HIV/AIDS, STD's, weight-management, depression, domestic violence, asthma, and over 20 additional topics all developed especially for women.

- **Credible** – Deploys information from CDC, the American Cancer Society and other leading health agencies in a confidential, direct one-on-one setting using personalized health education touchscreen kiosks and the Web.
- **Simple** – Clearly presents basic, life-saving information on a variety of timely, women centric health topics in an easy to use and understand format employing highly engaging images, graphics and audio narrations.
- **Captivating** – Gives users the ability to see the first-person benefits of making proper prevention, early detection and life-style choices. Provides direct contact to local resources for follow up.
- **Effective** – Independently developed assessment tools show that this program is extensively used and also influences users to favorably alter their behavior.
- **Outcome Based** - Offers program administrators the ability to retrieve full usage statistics detailing topics viewed (frequency), self-assessment tools (optional) and personal information (optional) directly from the web meeting HIPAA standards.

Wellness Suite offers a community of modular health education programs to our clients. These programs support flexible deployment strategies by using reliable, self-standing, easy to use touchscreen kiosks and web portals.
